11. JUST A LITTLE DROP OF WATER

Just a little drop of water
Falling down, falling down
Just a little drop of water
Makes the world go round

It falls from a cloud
To the earth below
Into the ground
So little plants can grow

Or into a pond
Or the forest green
A marsh or a meadow
To a trickle'in' stream

When the sun comes out
It evaporates
Up to the cloud
Where it condensates

Then once again
It falls back down
It's a circular motion
Going round & round
